

Grossmont High School

New Sports Medicine, Athletics, and Food Services Facilities

1100 MURRAY DR. | EL CAJON, CA 92020 | 619.668.6000 | [HTTP://WWW.FOOTHILLERS.COM/](http://www.foothillers.com/)

Grossmont's Sports Medicine program now benefits from a dedicated classroom situated adjacent to the sports fields and aquatic complex.

The new weight room, a dramatic upgrade from its former home in an old shower/locker room space, is equipped with top-rated strength-training gear.

BUILDING/CLASSROOM FEATURES

- Provides a state-of-the-art space for Grossmont's Sports Medicine Pathway, with simulation spaces, treatment tables, and exercise rehabilitation equipment
- Collegiate-style weight room with top-of-the-line strength training equipment
- Modern Food Services building has expansive serving stations, a walk-in refrigerator and freezer, and the capacity to serve 1,000+ students within 15 minutes
- New home side bleachers and press box with ADA access from both sides
- Spacious new classrooms currently house the relocated Grossmont High School Museum – the keystone of Grossmont High School's vast alumni network which provides vital support for the school's instructional and extracurricular programs

SUSTAINABLE FEATURES

- Utilizes insulated walls, high-efficiency fixtures and lighting, and reflective roofing materials to help reduce energy consumption for heating and cooling, thus lowering the building's carbon footprint
- Low-emissivity (Low-E) glass helps maximize natural light and block unhealthy rays
- High-performance facility design
- Drought-tolerant landscaping
- New hardscape areas

PROJECT DESCRIPTION

The new facilities include a spacious classroom for Grossmont's Sports Medicine Pathway, complete with cutting-edge equipment, diagnostic tools, and interactive displays. There is also an expansive new weight room, a dedicated coach's space, a secure storage area for sports equipment, and a new restroom facility. The project provides a new space for Grossmont's Food Services function, with a modern kitchen and food preparation area, and thoughtfully laid out serving stations. Additionally, the project provides new bleachers with ADA access from both sides and a new press box. New classroom spaces serve as the current home of the relocated Grossmont High School Museum and its extensive memorabilia collection. The museum existed previously in a building that was cleared for new construction.

Our thanks to East County taxpayers for approving Proposition U and Measure BB, making these facilities possible.
