

Gloria Jones Memorial Scholarship

"I was as much influenced by what she expected as by what she said and did. Her expectations became my strength and accomplishment--the definition of a leader."

-a Foothiller

Dear Foothiller,

Her smile and laugh are as unforgettable a part of our shared school history as her determined expression and walk. An excellent model of Foothiller leadership--strong, determined, and compassioned--she had the ability to get the best from her students, in both student government and the classroom. She thrived in leading her colleagues to improved working conditions as a union leader, promoting the highest levels of academic excellence by bringing Advanced Placement to Grossmont, and helping shape that same leadership for others at the state and national levels. Grossmont will annually award a scholarship in Gloria's name to the Foothiller who best demonstrates her unique leadership qualities.

Sincerely,
GUHS
